TO THE TAX PAYERS OF THE TOWN OF CONWAY.

As we have been misrepresented in the papers, also by many citizens, we felt it our duty to say, "That the town appropriated \$50.00 for decorating soldier's graves." We received a petition from members of Custer Post, and many other soldiers, residents of North Conway, asking for one third of said appropriation. We decided their claims were just and granted their petition. We offered the other two thirds to Custer Post at Conway Corner. They refused to accept part, and demanded the whole. As they would not accept the money, we appointed a committee to decorate, and they did so as far as they could, without giving offence.

To C. W. Wilder and B. F. Clark auditors of the town of Conway for the fiscal years ending March 1st, 1891.

Agreeable to Chapter 40 Section 10 of the general laws of New Hampshire, we herewith submit a report of all our financial transactions for the past year together with our vouchers therefor.

Respectfully,

JAMES W. WHITAKER, } Selectmen
ARTHUR R. SHIRLEY, } of
FRANCIS H. PARSONS, } Conway.

We, the auditors of accounts for the town of Conway, hereby certify that we have examined the accounts of the selectmen and find them correctly entered in their books of accounts and vouchers were presented for each item of account.

C. W. Wilder, } Auditors of
B. F. Clark, } Conway.

C. W. WILDER, }
P. F. CLARK, } Auditors.

REPORT OF TOWN AGENT.

After a thorough search among the records and papers of the town, and careful inquiry of the officials and ex-officials thereof, your agent has been able to find twenty collector's deeds of thirteen different pieces of real estate, sold to the town for non payment of taxes. In one instance the same property has been sold and deeded to the town three times for taxes aggregating \$163.07. In several other cases there are two deeds of the same property held by town. Not one of these deeds has ever been put on record and in no case has the town ever taken possession of the property. But for some inexplicable reason has continued to tax the property to the delinquent after his title had fully passed to the town. It seems idle to say that such a course is not commendable. Hereafter all deeds to the town should be placed on record as soon as received and the town should at once take measure to gain full possession of the lands covered by the deeds. I do not believe the town can maintain title to any of the lands of which it holds deeds except in the case of the fifty-eight acre lots. I would, therefore, recommend that all other lands, of which the town holds collectors' deeds, included among the town's assets be hereafter excluded therefrom.

The foregoing is respectfully submitted.

J. B. NASH, Town Agent.

ANNUAL REPORT

OF THE

SCHOOL BOARD

OF THE

TOWN ‡ OF ‡ CONWAY

FOR THE YEAR ENDING MARCH 1st, 1891.

REPORT OF SCHOOL BOARD.

TO THE CITIZENS OF THE CONWAY SCHOOL DISTRICT :

In this report the old numbering of the districts is retained for convenience. Wages are given by the week, including board.

DISTRICT No. 1.—The summer term of ten week was taught by Miss Sadie Locke of Fryeburg. Miss Lock is a student of Farmington Normal School. Her methods of instruction were excellent, the pupils were interested and good results were attained. The fall term of twelve weeks was taught by Miss Mattie Lewis of North Conway. Miss Lewis had earned a good reputation as a teacher in other schools in town, and success crowned her efforts here. Wages, \$7.00. Whole number of pupils, 20; average attendance, 18.

DISTRICT No. 2.—Two terms of ten and twelve weeks, both taught by Miss Katherine Page of East Conway. This was Miss Page's first effort as a teacher. She proved herself apt and thorough and gave entire satisfaction. Wages, \$6.00. Number of pupils, 9; average attendance, 9.

DISTRICT No. 3.—The summer term of eight weeks was taught by Mrs. Mary A. Potter of Conway, a teacher of ability and experience. The fall term of twelve weeks, by Miss Mary E. Hilton of Bridgton, Me., also a teacher of experience. Great advancement was made by the pupils here, during the school year. Wages, \$6.00. Number of pupils, 14; average attendance, 10.

DISTRICT No. 4.—The summer term of ten weeks was taught by Mr. Charles M. Stanley of Brownfield, Me. The fall term of sixteen weeks was divided into two terms of eight weeks.

each and taught by Miss Elizabeth Richardson of Cornish, Me. Both teachers labored faithfully and at the close of the school year, marked improvement in scholarship was the result. This is one of our hardest schools and if the sympathies of the parents were with the teacher, a change could be wrought. Wages, first term, \$8.00; second term, \$9.00. Number of pupils, 57; average attendance, 42.

DISTRICT No. 5.—The summer term of eight weeks was taught by Miss Martha O. Hobbs of Effingham. Miss Hobbs is a teacher of experience and gave general satisfaction. The fall term of eleven weeks was taught by Miss Marion Shirley of East Conway. This was Miss Shirley's first attempt at teaching. She did good work and with experience will make a good teacher. School work with so few scholars is necessarily monotonous. Wages, \$6.00. Number of pupils, 8; average attendance, 6.

DISTRICT No. 6.—First term of ten weeks, by Miss Edna G. Eastman of North Conway, who taught in this district both terms, last year. Her well earned reputation as a teacher was satisfactorily maintained. Second term of twelve weeks by Miss L. E. Blaisdell of Auburndale, Mass. Miss B.'s instruction was fairly good but she was lacking in discipline. Wages, \$7.00. Number of pupils, first term, 25; second term, 30. Average attendance, first term, 21; second term, 24.

DISTRICT No. 7.—First term of nine weeks, by Miss Katherine S. Russell of North Conway. This teacher was faithful and thorough and the scholars made excellent improvement. Second term of thirteen weeks, by Miss Mary H. Eastman of North Conway. Miss E. worked hard and achieved success. Both terms were characterized by a high average of attendance and great interest on the part of the scholars. Wages, \$6.00. Number of pupils, 8; average of attendance, 8.

DISTRICT No. 8.—Grammar. Both terms by Mr. Edward E. Russell of Lovell, Me. This teacher maintained good order, was energetic and thorough in his methods and his pupils made good progress. The appearance of this school, at its final examination, was somewhat marred by the absence, for some unknown reason, of some eight or ten of the older girls. Length of school, first term, ten weeks; second term, fourteen weeks. Number of pupils, first term, 55; second term, 50. Average attendance, first term, 42; second term, 35—a bad average. Non-attendance is the great drawback upon the

efficiency of this school. Wages, first term, \$11.50; second term, \$11.00.

DISTRICT No. 8.—Primary. First term of ten weeks by Miss Mattie Lewis of North Conway, who has taught this school for the two years previous. This term was as successful as former ones. Second term of fourteen weeks, by Miss Eva D. Walker of Fryeburg. Miss W.'s methods are excellent. The children seemed much interested in their recitations and showed good improvement. Wages, \$8.00. Number of pupils, first term, 47; second term, 51. Average attendance, first term, 43; second term, 37. The average attendance in the first term was a great improvement on that of past years. In the second term the falling off was due to the severity of the weather in December.

DISTRICT No. 9.—In this district there were but two scholars, who were provided for by paying tuition and transportation to the town of Eaton.

DISTRICT No. 10.—Two terms, both taught by Miss Katherine S. Osgood of North Conway. Wages, \$6.00. First term, eight weeks. Number of pupils, 12; average attendance, 11. Second term, nine week. Number of pupils, 12; average attendance, 7. Miss Osgood was faithful and diligent, and it was no fault of hers if the results were no more than fair. The second term was intended to be made longer, but several families moved out of the district, while some others allowed their children to absent themselves for no discoverable good reason. The board judged it to be unprofitable to continue the school with the small number of pupils remaining.

DISTRICT No. 12.—Summer term of nine weeks, by Miss Hattie Woodward of East Conway. This school, with bright scholars and efficient instruction, accomplished much. Fall term of twelve weeks, by Miss Grace Page of East Conway. This was Miss Page's first school. She did good work with good results. Wages, \$6.00. Number of pupils 8; average attendance, 7.

DISTRICT No. 13.—Grammar. First term of ten weeks, by Mr. Ervine D. Osborne of Bowdoin College. This was one of our best schools. Mr. Osborne has the faculty of imparting instruction with clearness and despatch, and of governing his pupils with firmness and yet kindly. The feeling prevailed, among his scholars, that he was working hard for their good, and the disposition to co-operate with him, in his efforts, was quite general. The second term of fifteen weeks was taught

by Mr. Clinton Stacy of Bowdoin College, Mr. Stacy is a competent teacher, but his methods seemed rather to cause his pupils to antagonize him, and consequently he found more occasions for severe discipline than his predecessor. Towards the close of the term, Mr. Stacy was obliged to leave on account of illness and the school was finished by his brother, Mr. Lucian Stacy also of Bowdoin College. Wages, \$11.00. Number of pupils, first term, 48; second term, 54. Average attendance, first term, 44; second term, 43.

DISTRICT No. 13.—Primary. First term of ten weeks, by Miss Eva D. Walker of Fryeburg. Number of pupils, 49; average attendance, 40. Second term of fifteen weeks, by Miss Gertrude M. Devereaux of Marblehead, Mass. This was Miss D.'s first school but was eminently satisfactory. Number of pupils, 43; average attendance, 30. Irregular attendance was a detriment to this school. Wages, \$8.00.

DISTRICT No. 14.—First term of ten weeks, by Miss F. B. Smith of West Newbury, Mass., who taught this school the previous year. Miss Smith's work gave general satisfaction. The building in this district is unfit for use as a school house. It is much out of repair and too small to accommodate the scholars of the district. Number of pupils, 38; average attendance, 32. The second term it was with some difficulty that a teacher was secured, on account of the bad condition of the building. One young man gave up the school after teaching one day. Finally, Mr. Frank H. Mead of Bridgton, Me., was engaged, and with patience and perseverance on the part of teacher and pupils, good work was done, notwithstanding the unfavorable environment. The fall term continued thirteen weeks. Number of pupils, 34; average attendance, 22. Wages, \$8.00.

DISTRICT No. 15.—The first term of ten weeks by Miss Minnie G. Riley of North Conway. Miss R. had taught with good success in other parts of the town, and this term opened well. Later some trouble arose which resulted in serious injury to the school. In this matter the scholars and parents must bear the greater part of the blame. Number of pupils, 39. Average attendance, 29. A bad average! The second term of fourteen weeks, by Miss Clara F. Harriman of Berlin Falls. Firmness and patience, with faithful instruction, on the part of the teacher, combined to make this a very successful term. Number of pupils, 37. Average attendance, 29. Wages, \$8.00.

DISTRICT No. 16.—The summer term, of ten weeks, by Miss Mary E. Hilton of Bridgton, Me. Miss H. had, before, taught several terms in this town. During our visits the scholars appeared interested; were prompt in recitation, and seemed to thoroughly understand principles. Number of pupils, 37. Average attendance, 27. The fall term, of twelve weeks, by Miss Martha O. Hobbs of Effingham. Miss H. had done good work in other schools in town, but did not prove so well adapted to the needs of this school, and the term was not as successful as we hoped for. Number of pupils, 37. Average attendance, 23. Wages, \$7.00.

DISTRICT No. 17.—One scholar was given transportation to District No. 1.

REDSTONE DISTRICT.—Finding it necessary to establish a school in this part of the town, we rented the public hall for a school room, at two dollars per week. The first term, of seven weeks, was taught by Miss Mamie Emerson of Redstone. Miss E. is a bright, wide-awake lady, and it was entertaining to visit her school. The second term, of twelve weeks, was commenced by the same teacher, Mrs. Mamie (Emerson) Chandler. At the end of seven weeks, Mrs. Chandler was called away, and for the remaining five weeks the school was taken in charge by Mrs. Fred Hersey of Redstone. As the cold weather came on, the hall was too large for comfort. A school house is needed in this district and the board recommends that provision be made for the needs of this section before the coming of cold weather again. Number of pupils, first term, 14; second term, 13. Average attendance, first term, 11; second term, 11. Wages, \$7.00.

The board regards it as a duty to call the attention of the citizens of Conway to the vast importance of its educational interests. Every child in this town should be equipped with the best mental training possible. It is not only for the benefit of the individual children, many of whom will go out from us and spend their lives in other places; but for the good name of the town, as one that means to do the very best it can for its children, and as a town that is made attractive to outsiders, as a place of residence and for the investment of capital. One of the important questions asked by people seeking for a home and place of business is "What are your school privileges?" Some improvement is discernible in our school system during the past three years, but there is room for more. Generous

appropriations for the school fund, the furnishing of comfortable school houses and the supply of the best text books, are investments which will pay, not only in the satisfaction with which we may regard our high stand on the subject of education, but financially. We note, as last year, the best results in the smaller and more retired districts where parents, teachers and scholars work together for the common object. In the village districts, where there is more going on to attract the notice of the pupils, we find that bane of schools, irregular attendance, hurtful, not only to the truants themselves, but also to those who are regular and attentive. The board has this year appointed two truant officers, who have made commendable efforts to overcome this drawback. We take some pride in making the statement that out of twenty-nine different persons employed as teachers the past year, thirteen are residents of this town. Many of them are young ladies who are striving to educate and fit themselves for the high profession of teaching. We regard it as wise policy to encourage such and to give them employment, so far as it is compatible with the interests of the schools. Ten years ago not one resident of Conway was employed as teacher in the schools of this town.

At the close of the last school year every school and scholar in town was supposed to be fully supplied with school books and a considerable supply remained in the hands of the board, for distribution. These facts were stated in the report of the board and no appropriation for school supplies was asked for by the board or made by the district at its last meeting. No sooner had the schools begun, in May 1890, than calls began to come in from every school for large numbers of books, much to the surprise of the board. What had become of the supply of books previously issued is a problem we are unable to solve. In addition to these demands, a new school had to be established at Redstone, which required a complete outfit of books throughout. A new law enacted by the legislature of 1889, made it the duty of school boards to purchase, at the expense of towns all needed school supplies, and provided that in the first purchase under the new law, changes of text books might be made without regard to the five year limit provided by former laws. The board, believing that the scholars of this town should have the benefit of the best text books, made some changes. The necessities of the district, as above stated, had to be provided for without an appropriation. The unexpended balance of last year's appropriation was used as far as it would go. One fifth of the Literary Fund was also used, as provided by the statute. The funds thus available were insufficient to supply all demands for school books and consequently there are some bills unpaid. The board estimates that an appropriation for the ensuing year, of not less than five hundred dollars, will be necessary to meet the needs of the district for school books. A system of book records has been adopted by the board, by which every book issued to pupils is charged and its condition noted. When the book is returned, it is credited and its condition noted, making every scholar responsible for books and for any loss or injury thereto. It is hoped that this system will be an effectual safe-guard against loss, other than the inevitable wear and tear.

ABBIE M. D. BLOUIN,	} School Board
MARY K. DAVIS,	
S. A. EVANS,	
	} of
	} Conway.

We, the auditors of the town of Conway, for the year ending March 1st, 1891, have examined the foregoing accounts of the School Board, and find them correctly footed and proper vouchers for each and every item.

B. F. CLARK, }
C. W. WILDER, } Auditors
